

## PRODUCT SNAPSHOT - L4 Mini French door refrigerator

2015-09-29

Designed specifically for Australian customers who need spacious storage but don't have ample kitchen space to fill, the L4 Mini is designed for Australian kitchens with a reduced height to allow the model to fit into a French door cavity with overhead cupboards. It includes all of the features of the larger 710 litre L4 Grande model, including inverter technology for energy efficiency and a large 800 mm internal width.

With French-door style design, the refrigerator boasts a 650 litre capacity and an ergonomic, stylish design in three colours. Designed with the home entertainer in mind, it is perfect for storing platters.

Other key features help food stay fresher for longer; the VitaLED slows the wilting process and maintains vitamin and anti-oxidant for longer while the Neuro Fuzzy system can memorise the household's usage patterns and automatically operates the most optimal conditions.

### Specifications
